**Cell: A1****Comment:** Douglas Yeo:

This database has been compiled from the official NABBA programs that were published for each contest. As a work in progress, more information will be added as it becomes available. If any NABBA member has official information that can add to or contradict the information in this database (such as contest results, scores, knowledge that a band did not attend the contest), please email me through the "Email Douglas Yeo" mail form on my website, [www.yeodoug.com](http://www.yeodoug.com). I will make my best efforts to verify the information and make any necessary adjustments to this file. The file will be updated each year with programs and results from subsequent NABBA contests.

Information is as accurate as I can determine given the source material from which I worked. I alone take responsibility for errors caused by inaccurate input of data.

As an Excel file, this database can be sorted any number of ways to give users the information they want.

My thanks to Diana Herak, Paul Droste, Anita Cocker Hunt, Jim Grate, John de Salme and Ron Holz for their help in providing me with programs, contest score sheets and other information as well as for their encouragement as I worked to set up this resource for NABBA.

Comment: Douglas Yeo:

Works with titles beginning with "A" or "The" are entered, for example, "Year of the Dragon, The."

••••••••

Marches whose title is usually shown as, for example, "March: Manhattan" are entered, "Manhattan, March."

Cell: H1

Comment: Douglas Yeo:

This column indicates if the piece was played by a band as the test piece for the section in which they competed.

In 1992 and 1993 bands were allowed to choose a test piece from a list of three pieces for each section. All pieces in the "Test?" column for 1993 have an x in the column since the NABBA program did not publish a full list of pieces that bands could

choose from for their test piece.

**Comment:** Douglas Yeo:

In 1983, the Honors Section was called "Second Section" and the Open Section was called "Non-competitive."

**Cell:** J1

**Comment:** Douglas Yeo:

The "Place" field gives the contest place and number of bands that competed in the section. For example, 1/6 means the band took first place in the section and six bands competed in the section. Disqualified bands do not count in the total number of bands that competed in the section.

••••••••

"0" in the "Place" field indicates a band performed at the contest but was subsequently disqualified. NABBA does not release scores for disqualified bands.

••••••••

A place like "0/2" means the band competed for comments only - no official place or score is given for these bands. For instance, the Junior-Varsity All-Stars competed in the Youth section in 1991 but they are placed "0/2" which indicates their performance was for comments only.

••••••••

In a case where a band performed in a section for "comments only" they are not included in the number of bands that competed in that section and no number appears in the "place" or "score" fields.

**Comment:** Douglas Yeo:

No score is given for bands playing in the Exhibition section or for bands that play for "comments only" (see note for "Place" field).
